Instructions on certificate re-keying request

- Re-keying is allowed to subscribers of ArmeSFo CA before the expiration of their current personal certificate, provided the last authentication of the subscriber in the face-to-face meeting with its RA was done not more than 4 years ago;
- Re-keying request must be sent not sooner than 30 days before and not later than 10 days before expiration of the current certificate;

You should proceed as follows:

- **Generate a Certificate Request(CR)**

The subject DN in the CR must be the same as that in your current valid certificate.

- **Send the CR to your RA via e-mail, signed by your certificate:**

- The subject of your message should be:
Certificate re-keying request of <your full name>
- The body of your message should be:
Dear RA,
I send you Certificate re-keying request.
My current certificate is valid till <expiration date of current valid certificate>.

Include the content of PEM file of your CR

<your full name>
